

# zSnap TURF

## Adding A Little GREEN To Your Deck

Quality artificial turf, that is created with a blend of polypropylene and polyethylene, which is made into synthetic fibers to look like natural grass. Then it is joined with rubber granules and silica sand to help keep the blades upright. zSNAP.TURF is created with your comfort in mind.

zSNAP.TURF comes with **SEVEN INNOVATIONS** that lets it stand out from the rest of the artificial turf in the market now.

- 1 **“Lushlook”** heightens the look and feel of the lawn by having a lush, green vibrant appearance regardless of the weather.
- 2 Our **“SoftTouch”** technology gives the fiber extra softness, which is soft underfoot and a breeze to walk on.
- 3 The **“FastDrain”** system allows faster transportation and disposal of water, keeping your lawn dry every time.
- 4 Armed with **“UVDefender”**, with a grey scale score of “4-5”, it is designed for strong sunlight area without discoloration.
- 5 Our zSNAP.TURF is equipped with **“MaxDensity”** technology that comes with 26 stitches per 10cm allowing a full body shape and suitable recovery even with softer fiber.
- 6 **“HealthProtector”** is used in the production ensuring no heavy metals and hazardous substances involved, letting you enjoy your lawn in a safe environment.
- 7 With **“ToughBack”** 1.1kg/sqm of double layer latex backing, it holds the lawn together in the toughest condition.

## FAQ for Turf

### What is artificial turf made of?

Typically this product is created with a blend of polypropylene and polyethylene, which is made into synthetic fibers to look like natural grass. Then it is joined with rubber granules and silica sand to help keep the blades upright.

### I thought artificial turf was just for sports fields, can you put it on residential lawns?

The initial start was on professional athletic fields, but newer products were developed specifically for residences. Homeowners choose this product for a variety of reasons including the consistent beauty of it, less hassle in upkeep, and water conservation.

### Is artificial turf safe for my children?

An artificial lawn is absolutely safe for children. It is soft so falling during play doesn't leave injuries. It produces no pollen, so kids will likely see a reduction in allergies. It contains no metals and hazardous substances, so it lessens the chances of chemicals spreading to children.

### Is artificial turf dog-friendly?

Of course! It doesn't stain and urine drains through it. Any mess can be washed off with a hose. Best of all, dogs can't dig through an artificial lawn!

### Does it come with a warranty?

It comes with a 5years warranty against discolouration and UV degradation.

### How much maintenance and upkeep does an artificial lawn need?

It is low-maintenance and easily maintained. You will need to wash it down occasionally with a garden hose, especially if you have pets. You may need to brush it with a broom or even vacuum it to remove dust and loose dirt.

### Will it stain or fade?

Our high-quality artificial turf product does not stain or fade.

### How well does artificial turf drain?

It drains very well as there is a drainage base below the levelling layer, which has perforations for drainage. So you don't have to worry about any risk of having flooded gardens or balconies.

### Will weeds ever grow through my artificial lawn?

Weeds are not typical in an artificial lawn.

### Is this safe for the environment?

Yes, an artificial lawn is completely safe for the environment. This product is made using environmental-friendly standards and helps conserve water.
